

IN THE MINING FIELD

Operations of Interest Throughout
the County of Cochise, Arizona
and Sonora

LAKE SUPERIOR AND PITTSBURG

After so long a time the Lake Superior & Pittsburgh, or South Elisee people find it impossible to longer conceal the fact that they have struck it rich both in the No 2 and 3. This fact has practically been established to the satisfaction of the local public for several months, but at last it is evident to the most ordinary observer.

It is nothing but natural for development companies to "keep mum" as long as possible, but now that it can no longer be concealed the management find a general disclosure available, since it can have no unfavorable effect on the thousands of shareholders who carry stock in surrounding properties. The Lake Superior No 2 have on several occasions, shipped ore in car lots which netted them over \$3,000, and are now confronted with the title of a regular mine.

On the No. 3, previous workings, open cuts, gouges and shallow shafts have disclosed elegant ore in respectable bodies. On the 130 they have made a fair strike and lower down they have now struck it in good shape which throws a sudden and no uncertain light upon the sure success of the Calumet & Bisbee, the Wolverine, the White tail Deer and the closely adjoining property of James Callahan in that locality. While this revelation establishes that there is an unfailing copper belt along a line identified with that system of mines and prospects, the discovery of excellent indications in the Calumet & Cochise puts the mining world in a state of bewilderment and suggests the prediction that the belt is miles in width instead of yards.

Verily verily sayeth the rock monger, the copper area of the Warren district is a wonder.

CALUMET & PITTSBURG.

This property which is directly in line with the remarkable system which forms a chain from the Czar to the Lake Superior & Pittsburgh inclusive is preparing for a new move to determine the extent of the ore bodies which they have recently encountered. In a drift on the 9th they have a body of low grade copper about 75 feet in width, the length of which has not been ascertained. In the near future they will install a diamond drill to demonstrate the depth of this deposit, which interesting experiment will doubtless be followed by many others of the same character throughout the workings. These people have a warm water problem on their hands at the same time, and will shortly increase their power capacity by about a hundred per cent.

WICKENBURG MINING NOTES

Dr. E. J. Perry and son, "Ted," left for Denver last week. They are interested in mining property near Wickenburg. "Ted" has been here for the past several months and looked after interests here. Dr. Perry came out recently to see how matters at the mine are progressing. Their property, the Profusion group, is in charge of Oscar Jennings, who has a contract to do considerable work on the property during the coming winter.

F. X. O'Brien, manager of the Indian Mining and Trust company's property, has a force of about forty men at work and two shafts are being made for the operation of a 10-stamp mill. It is said that as soon as conditions justify it, more stamps will be added.

Good reports keep coming in from the Electra mine. Drifting is being pushed on the 100 foot and 150 foot levels and good ore is being taken out. A rich body of gold ore has been encountered on the new drifts that will run about \$60 per ton. Nickerson & Wilson can be depended on to work the property to the best advantage and in an economical and business-like manner. Stock in the Electra is a good buy.—News-Herald.

RUSHING EAST.

Did you ever stop to observe that as soon as a rugged pioneer miner makes his first clean up of a few thousand dollars, his first impulse is to go to El Paso, Kansas City, Chicago and even as far as New York and start an office. Now, as a fact, he is a star spangled success as a prospector and a practical mining man, but when it comes to the manipulations involved in running an "office" in a big eastern city, he knows about as much about it, as the thoroughbred manager of an eastern office knows about sorting ore on the dump of the "Scarlitino Prevarico." The fact is, he is a most valuable man at home, but as a rule he is monumental, mortified failure when it comes to the manipulating business in a big eastern office.

The usual result is, that he returns a few months with an empty pocket, and a Gladstone grip full of sorry experience. Why not stay in grand old Arizona, gentlemen, and work in the field where your experience enables you to handle the formation to eminent advantage.

MINING PERSONALS.

Harry Stine, one of the original locators of the Lucky Tiger is just back from Kansas City where he has established a brokerage business. After mature experience in both capacities, Harry has demonstrated that eating beans and sleeping in the wasp qualifies a man for all round business. He is interested in oil deals in southern Kansas besides owning specific interests there. At the same time he is extensively interested in the Warren district and in company with the mining "feller" of the Review will shortly make a careful canvas of the outlook in this locality. Harry has the judgment to size up a proposition when he sees it and the means for seeing it. He will remain among us about ten days.

O. P. Hunt, recently returned from the Huachuca will shortly depart for the Eastern Ajo district in Sonora, where he will remain about six weeks and will then proceed to the Magdalena country in Mexico.

His object is to track up certain gold prospects of which he obtained a limited knowledge several years ago. He went to Douglas yesterday for the purpose of securing an outfit. Mr. Hunt is an old prospector and miner of unusual judgment and his mission is apt to be fraught with splendid results.

Charles Ricker started for Sonora last Monday in quest of an old property, a mention of which was made in The Review last Sunday morning. Charley is a sound and cool calculating business man and it is to be hoped will have the laugh on us when he returns, by demonstrating that he had made an elegant acquisition.

George Dunn and others are expected back tomorrow from George's promising properties in the Ajos in Sonora. Some of the finest "stuff" ever exhibited in Bisbee has come from these properties. They are distinguished for producing beautiful forms of copper, especially ruby.

FUNNY IDEAS.

A few days ago a Review man, on being introduced to a stranger at Bisbee, was asked if it was true as reported, that the whole population of Bisbee, along with the Smelter was moving to Douglas. He was promptly informed that it was all true and that moreover, they were preparing to move the Copper Queen mines, the Calumet & Arizona, the Lowell, the Gardner, the Pittsburgh, the Lake Superior & Pittsburgh, and 150 other mines. The stranger departed with the expression, "Ah, gowan."

He Learned a Great Truth.

It is said of John Wesley that he once said to Mistress Wesley: "Why do you tell that child the same thing over and over again?" "John Wesley, because once telling is not enough." It is for this same reason that you are told again and again that Chamberlain's Cough Remedy cures cold and grip; that it counteracts any tendency of these diseases to result in pneumonia, and that it is pleasant and safe to take. For sale by all druggists.

ARTICLES OF INCORPORATION Of the Mountain View Development Company.

KNOW ALL MEN BY THESE PRESENTS:

That we, George Bennett, I. E. Holmes, Gano S. Crockett, George C. Walker, and Chas. Trotman all of the City of Bisbee, County of Cochise, Territory of Arizona, and all citizens of the United States, have this day voluntarily associated ourselves together for the purpose of forming a corporation under the laws of the Territory of Arizona; and we hereby certify, acknowledge and adopt the following Articles of Incorporation.

ARTICLE I.
The name of this corporation shall be and is the Mountain View Development Company.

ARTICLE II.
The principal place of business of this corporation shall be in the City of Bisbee, County of Cochise, Territory of Arizona and shall have branch offices at such places as its Board of Directors may from time to time select.

ARTICLE III.
The general nature of the business and enterprise to be transacted by this corporation is as follows:
(a) To purchase or otherwise acquire, own, hold, sell, bond, rent, lease, mine and work mines and mineral lands and the products thereof.
(b) To purchase or otherwise ac-

quire, own, hold, sell, bond, rent, lease, and sublet water, water rights machinery, supplies, materials and other articles necessary or convenient for use in connection with and in the carrying on of the business herein mentioned, or any part thereof.

(c) To purchase or otherwise acquire, own, hold, sell, bond, rent, lease, sublet maintain, manage or construct pipe lines, tracks, reservoirs, roads, tramways, ditches, canals, embankments, telephone or telegraph lines, railroads and other works, property or appliances, that may be incident or auxiliary to the main business of this corporation, as set forth in subdivision "a" hereinabove, or that may be deemed necessary, expedient or useful or convenient to said main business, by the board of directors of this corporation.

(d) To sell, convey, bond, lease, mortgage or otherwise dispose of any and all of its property of every character whatsoever.

ARTICLE IV.
The amount of the capital stock of this corporation shall be One Million Dollars (\$1,000,000) divided into one million (1,000,000) shares of the par value of One Dollar (\$1.00) each.

ARTICLE V.
The time of the commencement of this corporation shall be the date of filing in the office of the Auditor of the Territory of Arizona, of a certified copy of the articles of incorporation, and the termination thereof shall be twenty-five (25) years thereafter.

ARTICLE VI.
The affairs of this corporation shall be conducted by a board of directors consisting of not less than seven (7) persons, who shall be shareholders.

The first directors shall be George Bennett, I. E. Holmes, Gano S. Crockett, George C. Walker, Chas. E. Trotman, H. M. Wood and J. F. Sinclair all of the City of Bisbee, County of Cochise, Territory of Arizona; who shall hold office until the second Monday in October, 1904, and until their successors are elected and qualify, thereafter the directors at a stockholders meeting to be held at the office of the company on the first Monday in October, at 10 o'clock a. m. in each year, shall be elected and qualify for the term of office commencing on the said second Monday in October of each year. The board of directors shall have power at any time to fill vacancies therein.

ARTICLE VII.
The officers of this corporation shall be a president, a vice president, secretary, treasurer, and such minor officers as the board of directors may from time to time deem it wise or expedient to have.

The president, vice president, secretary and treasurer shall be elected annually by the board of directors from their own number at the first meeting of the board following the annual election of the said directors. The office of secretary and treasurer may in the discretion of the board of directors, be held by one person.

ARTICLE VIII.
The highest amount of indebtedness or liability to which this corporation is at any time to subject itself shall in no case exceed the sum of One Hundred and Fifty Thousand Dollars (\$150,000).

ARTICLE IX.
The board of directors shall adopt by-laws for this corporation which may be repealed or amended by said board.

ARTICLE X.
The private property of the stockholders of this corporation shall be exempt from any and all liability for the corporate debts of this corporation.

IN WITNESS WHEREOF we have hereunto set our hands and seal this 29th day of September, 1903.

Geo. BENNETT. (Seal.)
I. E. HOLMES. (Seal.)
GANO S. CROCKETT. (Seal.)
GEO. WALKER. (Seal.)
CHAS. E. TROTMAN. (Seal.)
Territory of Arizona, ss.

County of Cochise,)
Before me, C. A. McDonald, a Notary Public in and for the County and Territory aforesaid on this day personally appeared George Bennett,

I. E. Holmes, Gano S. Crockett, George C. Walker and Chas. E. Trotman, known to me to be the persons whose names are subscribed to the foregoing instrument and acknowledged to me that they executed the same for the purpose and consideration therein expressed.

Given under my hand and seal of office, this 29th day of September, A. D. 1903.

My commission expires December 22d, 1906.
C. A. McDonald,
Notary Public.
